Why Money Rolls Matter in a Clan

Money Rolls are the core resource in Dice Dreams, and clans turn solo rolling into shared progress. Here is what they unlock when you play as a team.

- **Coin Generation:** Each roll earns coins on the board. Coins fund every kingdom upgrade your clan members complete.
- **Shared Clan Goals:** Clans complete group objectives for bonus rolls. Every member's activity feeds the shared reward pool.
- **Attack Coordination:** The Attack effect targets rival structures for loot. Coordinated clan attacks return larger combined payouts.

- **Shield Support:** The Shield effect blocks incoming raids. Active clanmates send shields to protect each other's buildings.
- **Event Volume:** Clan events reward total group activity. A high roll count from every member lifts the entire clan's rank.

Roll management matters more in a clan because your rolls support the whole team. Players who coordinate progress faster than players who roll alone.
